31st March, 1913.

Brighton County Borough Asylum,

HAYWARDS HEATH.

NINTH ANNUAL

REPORT OF THE VISITING COMMITTEE

(Pursuant to Section 190 of the Lunacy Act, 1890),

Being the Fifty-fourth Annual Report since the Foundation of the Institution.

To the Council of the County Borough of Brighton.

THE VISITING COMMITTEE beg to submit their Report for the past year.

It is with deep regret that the Committee record the loss they have sustained through the deaths of their esteemed colleagues Alderman Edward Martin and Councillors Lynn and Whittome. It is worthy of notice that Alderman Martin was one of the first representatives appointed by the Council, in October, 1889, under the powers conferred on them by the Local Government Act, 1888, on the Visiting Committee of the Sussex County Asylum, and he continued to act in that capacity down to the year 1903, when the Asylum came under the sole control of Brighton; afterwards serving as a member of this Committee until the time of his death. Councillors Lynn and Whittome had been members of the Committee since February, 1904.

The numbers of Patients on the books on the 30th September last, and on the corresponding date of last year, were as follows:—

Males Females							1912 365 462	1911 368 507
The numbers are	e d	ivid	led	as	ſc	ollo	ws:—	
From Brighton	n (Jnio	on	•		•	572	609
From the pa Union with								
Borough .	•		•	•	•	•	72	7 8
Out County.	•	•	•		•		152	161
Private	•	•	•	•	•	•	31	27
		-	Γοί	tals	•	•	827	875

In addition to the above, there are 8 imbecile children placed under contract in Hellingly Asylum, as against 10 at the same date last year.

The general health of the Patients and Staff has been good.

The Weekly Maintenance Rate in respect of the four quarters of 1912 was fixed by the Committee as follows:—

								Corresp		
						1912		Quarter		II.
						s.	d.	s.	d.	
March Qua	arter	•	•	•	•	IO	0	9	9	
June	,,	•	•	•	•	ΙΙ	0	9	9	
September	,,	•		•	•	ΙI	0	9	9	
December	"	•	•	•	•	ΙI	0	9	9	

The only change which has occurred during the year in the personnel of the Chief Officers has been the appointment of Miss Jennie Goodwin, as Matron of the Asylum, in place of Miss Mary Ann Buckle, who

has retired on a pension after over 52 years' highlyefficient service as Matron of the Institution.

The Patients have been visited, and the Wards inspected, at each Monthly Meeting by Members of the Committee.

The Farm, Finance and Stores Sub-Committees have reported on the various matters under their supervision at each meeting of the Visiting Committee.

On the 21st February last two of the Commissioners in Lunacy made a visit of inspection, and left a report.

During the year Deputations from Boards of Guardians visited the patients in the Asylum chargeable to their respective Unions, and in every case expressed their satisfaction with the arrangements made for the care of their patients.

During the year the Committee have carried out the painting of the ceilings and walls of Male Wards Nos. 1 to 4, and the plastering of the ceilings and walls and have provided new window frames and sashes to Male Ward No. 6. These works were executed under one contract, at a total cost of about £882.

The Bath Service on the Male side has been improved by the installation of spray baths, at a cost of about £224. A new Bathroom has also been provided for the use of the Matron and other Officers.

The Drain from the Female Centre Block having been found to be defective, a new drain is in course of construction, at a cost of about £203.

The Hydro-Extractor in the Laundry having become worn out, a new over-driven Hydro-Extractor has been purchased at the price of £89 5s.

A direct means of escape in case of fire from the Laundry Maids' Sleeping Quarters has been provided by means of an iron platform placed on the roof of the drying room outside the maids' bedroom windows, and communicating by cast-iron steps with the drying yard, at a cost of £39 4s. 8d. Additional internal fire-hydrants have also been provided at both extremities of the main building, at a cost of £33 19s. 6d. In connection with both these matters the Committee have availed themselves of the advice and assistance of the Corporation Waterworks Engineer (Mr. James Johnston).

The Committee have accepted the tender of Messrs. Cook & Sons, of Crawley, for carrying out the additions and alterations to Female Ward No. 6, and the enlargement of the Airing Courts in accordance with the plans approved by the Council, and the work is now proceeding. The laying out of the garden beds, forming tar paths in the Airing Courts, and constructing a new occupation road, is being carried out by direct labour, under the supervision of the Parks Superintendent of the Corporation (Mr. G. Ward).

The Committee have under consideration a scheme for the provision of improved accommodation—both for day and night—for the Nurses of the Institution, in the shape of a Nurses' Home erected in the Asylum grounds, some distance away from the main building. The proposed building will contain sleeping accommodation for 29 nurses, and suitable day rooms for recreation purposes. Sketch plans have been prepared by the Asylum Surveyor, and are now under the consideration of the Lunacy Commissioners. The

plans, together with full details of the scheme, will be laid before the Council for their approval in due course.

The contracts with the County Borough of West Ham for the reception of 30 male and 30 female patients expired in December last, and the patients were removed to another Asylum. The Committee forthwith communicated with other Asylum Authorities with a view to getting further contract patients to fill the vacancies, and negotiations were also opened with the Eastbourne Town Council, with a view to taking a further number of their patients then in Hellingly Asylum. Ultimately, a further contract was entered into with Eastbourne for the reception of 20 male and 20 female patients from the 6th August last to the 1st April, 1916, this being the date of determination of the original contract with them.

A contract has also been entered into with the London County Asylums Committee for the reception of 20 London County male patients for a period of five years from the 15th June last.

The Committee are also pleased to report that the contract with the Visiting Committee of the East Sussex Asylum for the reception in that Institution of imbecile children, for the maintenance of whom the Brighton Committee is responsible, has been renewed for a further period of five years on the same terms.

Application was made on behalf of the Committee for a Certificate of Exception from the provisions of Part I. (Health Insurance) of the National Insurance Act in respect of the established officers and servants of the Asylum who are employed contributors under the Act, and a certificate has been issued by the Insurance Commissioners.

On the 25th May last the Committee reported to the Council with a synopsis of the accounts for the year ended 31st March last, and these accounts have been published in the Committee's Blue Book.

The Committee beg to inform the Council that the Building and Repairs Fund, which, as the Council are aware, consists of the excess arising from the receipts in respect of maintenance of patients taken under contract from other Authorities, or otherwise chargeable to Unions outside the County Borough of Brighton, was, at the date of the last Annual Report, £9,843 4s. 2d., since which date the Fund has been increased to £11,887 9s. 5d.

The following payments have been made out of the Fund since the date of the last Report, viz.:—

	£	s.	d.
Ordinary Repairs and Insurance	1766	15	7
Superannuations	47	19	6
Painting of Wards and Alterations to			
Male Ward No. 6 (including Salary			
of Clerk of Works)		0	0
Alterations to Female Ward No. 6 .	100	0	0
Improved Bath Service	31	3	3
Fire Mains	179	0	0
Drainage of Female Centre Block.	150	0	0
	•		
	£2911	18	4

Consequently, the balance of the Building and Repairs Fund now stands at £8,975 11s. 1d.

The Committee have continued the course pursued for the past two years of abstaining from making precepts upon the Borough Treasurer in respect of the cost of ordinary repairs, insurance and superannuation allowances at the Asylum, with the result that the Borough Rate has been relieved to the extent of \pounds 1,814 15s. 1d. during the year.

During the year pensions have been granted to officers and servants of the Asylum, under the Asylums Officers Superannuation Act, 1909, as follows:—

		An	noun	it
Name.		per	annı	ım.
		\sim	s.	
Charles Jeffrey, Store Porter	•	46	13	6
Margaret Bonham, Dining Hall Maid		35	14	7
William Nicholls, Night Attendant.		31	ΙI	2

The Committee desire to record their appreciation of the way in which Dr. Planck, his medical colleagues, and the General Staff continue to discharge the duties of their respective offices.

On behalf of the Visiting Committee,

(Signed) W. SENDALL,
The Asylum, Chairman pro tem.
Haywards Heath,
26th October, 1912.

ABSTRACT OF ACCOUNTS for the Year ended 31st March, 1913, Asylum, situate at Haywards Heath, and belonging wholly

THE

MEDICAL SUPERINTENDENT'S REPORT.

THE MEDICAL SUPERINTENDENT has the honour to submit the Ninth Annual Report to you as the Committee of Visitors of the Brighton County Borough Asylum, being the Fifty-fourth since the opening of the Asylum.

The Admissions during the year ending September 30th, 1912, have been — Males, 98; Females, 92; Total, 190.

The Discharges during the year have been—Males, 70; Females, 96; Total, 166.

The Deaths during the same period have been—Males, 31; Females, 41; Total, 72.

The Average Number Daily Resident during the year has been—Males, 348; Females, 462; Total, 810.

The Numbers in the Asylum this day, 30th September, 1912, are—Males, 365; Females, 462; Total, 827.

They are chargeable as follows:—

	Males.	Females.	Total.
To Brighton Parish	239	32 6	565
To the portion of Steyning Union included in the County Borough of			
Brighton	28	44	72
To the County Borough of			
Brighton	3	4	7
To Out-County Unions	5	6	ΙΙ
Private Patients	10	21	31
Patients under Contract—	•		
London	20		20
Eastbourne	60	61	121

The total number of patients chargeable to Brighton and to the Steyning Union has decreased by 43, viz., a decrease of Males, 9, and of Females, 34.

The Admissions during the year from the Parish of Brighton and from the portion of Steyning Union in the County Borough of Brighton have been—Males, 52; Females, 66; Total, 118.

Of the Admissions, 123 in number (excluding transfers from other Asylums), 32.1 per cent. of the Males were deemed curable, and 49.3 per cent. of the Females. Excluding transfers from other Asylums, the percentage of those discharged as recovered within the year is 10.8 per cent. more than last year, viz., 40.7 as against 29.9 per cent.

TABLE IV.—Shewing the Further History of the Year's Direct Admissions.

	Males.	Females.	Total.
Discharged Recovered	II	15	26
" to Care of Friends	6	3	9
Transferred to other Asylums	2	5	7
Died	8	9	17
Remain in Asylum	29	35	64
Total	56	67	123

The Discharges were 166, of whom 70 were Males and 96 Females.

Of the 70 Males who were discharged, 16 had recovered, this being a percentage of 28.6 on the admissions, excluding transfers, 18 were discharged to the care of friends, one was removed to the Workhouse relieved, and 35 were removed to other Asylums.

Of the 96 Females who were discharged, 34 had recovered, this being a percentage of 50.7 on the admissions, excluding transfers, 16 were discharged to the care of friends, 6 were removed to Workhouse relieved, and 40 were transferred to other Asylums.

Seventy-two deaths occurred, viz., 31 Males, 41 Females. The death rate, based on the average daily number resident, is Males, 8.9; Females, 8.9. For both sexes 8.9 per cent. Of the total deaths 10 were due to tuberculosis, 8 to bronchitis or pneumonia, 4 to heart disease, 2 to nephritis, 12 to general paralysis, 8 to old age, 3 to exhaustion from mania, one to

carcinoma of the stomach, 7 to dysentery, and the remaining 17 to various forms of brain disease or other constitutional disorder.

Females	••	• •	3	11	19	8	41
Total		••	10	22	2 9	11	72

TABLE V.—AGES AT DEATH.

The Mean Age at Death for both sexes was 55.4 years—Males, 51.5; Females, 58.3.

The Coroner held one inquest during the year, on the body of a Male patient, who was admitted in a feeble state of health, and died three days later. The jury returned a verdict that death was due to natural causes, and that his removal to the Asylum was not a contributory cause to his death.

There has been one serious non-fatal casualty, to an elderly Male patient, who was pushed by a fellow patient, and fell, fracturing the neck of his femur.

There has been unusual variation in the general health of the patients during the past year. In the spring there was much sickness, and the death rate was high; an epidemic of Influenza attacked both patients and staff, and there was an outbreak of Dysentery. To meet the latter emergency the sanatorium was used as an isolation hospital while the epidemic lasted. On the other hand, during the

three summer months, there were only 3 deaths, equivalent to an average annual rate of 1.5 per cent., and for a period of 20 consecutive weeks the Female side, with an average population of about 450, had not a single death. Among the deaths was that of a Female patient who had been an inmate for $52\frac{1}{4}$ years.

On the 1st of January Night-Attendant Philip Hammond died of cerebral hæmorrhage. He had been 23 years in the Asylum service, was a trustworthy, able man, and his loss was regretted by the entire Staff. You voted a substantial gratuity to his widow.

There has been one birth during the year, a patient received from Brighton, but afterwards adjudicated to a London County Union, being delivered of a female child three months after admission.

There have been four escapes; a male patient climbed the airing-court wall with the assistance of a fellow patient, a female escaped when on the "roadwalk," a male when working on the farm, and another male while attending the picnic. All were re-captured and brought back to the Asylum, the last-mentioned after an absence of 4 days, the others within 24 hours.

The Commissioners in Lunacy visited the Asylum on the 21st of February.

A Committee of the Eastbourne Town Council, also Deputations from the Brighton, Eastbourne and Steyning Boards of Guardians have visited their patients, and left favourable reports.

Your contract with the County Borough of West Ham having expired, the West Ham patients were removed to other Asylums in December last. A Town Council for the reception of 40 additional patients, 20 of each sex. These patients were admitted in August. Further vacant accommodation existing on the Male side of the Asylum, you entered into a contract with the London County Asylums' Committee and 20 London male patients were admitted in June. All these changes have been effected without mishap of any kind.

Numerous important repairs and alterations have been carried out during the year.

Male Ward No. 6 has been generally improved, the walls plastered, the iron lattices replaced by double-hung wood sashes, the ceiling renewed, and the lighting improved by an additional skylight.

Male Wards Nos. 1, 2, 3 and 4 (which were plastered in 1911), have been re-decorated throughout.

Automatic spray-baths have been installed in the Male general bathroom.

The number of internal fire hydrants being found deficient at the two extremities of the building, 9 new hydrants have been placed in position, 7 on the Female side and 2 on the Male side. The new hydrants are supplied from the outside high-pressure main.

A new platform and outside iron staircase has been erected, giving emergency exit from the Laundry-Maids' quarters.

A new bathroom has been built for the Female Officers.

A small dormitory on the Female side has been re-constructed as a Matron's office, with a new entrance from the Matron's corridor.

The water main and the main drain from the administrative block, which formerly ran in the same subway, have been separated, a new subway has been constructed and a new drain laid down.

An additional hydro-extractor has been placed in the Laundry.

The Attendants' Mess Rooms on both sides have been re-decorated, as also the Scullery of the Female Dining Hall.

Important alterations now in progress are the re-construction of Female Ward No. 6, and the improvement of the Airing Courts. The Ward is being enlarged to more than twice its previous size, and the old portion is being renewed, the walls plastered and the iron lattices re-placed by double-hung wood sashes. The whole of the Airing Courts are being re-arranged and much enlarged, the loose gravel removed, turf and flower beds laid down, and the boundary walls re-placed by iron fencing masked by a privet hedge. It is expected that these changes will be completed early in 1913.

The conduct of the Staff has been generally good.

There has been one change in the Official Staff, Miss Jeannie Goodwin being appointed Matron in place of Miss Mary Ann Buckle, whose retirement was mentioned in my last annual report.

I have to acknowledge the valuable assistance of my Medical Colleagues in carrying on the work of the Institution: also the hearty co-operation and willing help of the entire Staff.

To you, gentlemen, I offer grateful thanks for your generous support and continued confidence in my administration.

CHARLES PLANCK,

Medical Superintendent.

31st March, 1913.

THE CHAPLAIN'S ANNUAL REPORT.

THE CHAPLAIN has the honour to lay before the Committee his Annual Report.

The Sunday Services in the Chapel and the Daily Prayers in the Dining Halls have been regularly held. The quiet reverence shewn by the patients is very marked.

The Chaplain is glad to be able to report a great improvement in the rendering of the musical portions of the Sunday Services. With a very capable Organist and a large addition to the Choir, the Psalms, Canticles and Hymns are much better sung than they have been for many years.

The usual number of books (600) has been purchased for the Library. The shelves on both sides of the House are now well filled.

There have been 72 deaths during the year, and 32 burials in the Asylum Cemetery.

During the Chaplain's holiday in September the duties were taken by the Rev. F. E. Browett, of Haywards Heath.

(Signed) E. R. D. LITLE, M.A.

September 30th, 1912.

^{*} One entry, and one only, has been made in these columns for each case recorded in them; thus the totals of these columns will equal the number of cases belonging to that particular class.

† As several factors will have sometimes been entered in these columns in respect of one case, and, ou the other hand, there may have been none to enter, no attempt should be made to totalise these columns.

† All cases believed to have suffered, at any time in their lives, from Syphilis have been entered.

§ The figures in this column, as far as the end of Group L, should be repeated in Table B 8 in the column similarly marked.

^{*} One entry, and one only, has been made in these columns for each case recorded in them; thus the totals of these columns will equal the number of cases belonging to that particular class.

† As several factors will have sometimes been entered in these columns in respect of one case, and, on the other hand, there may have been none to enter, no attempt should be made to totalise these columns.

† All cases believed to have suffered, at any time in their lives, from Syphilis have been entered.

§ The figures in this column, as far as the end of Group L, should be repeated in Table C 5 in the column similarly marked.

Ditto

Irish Stew

Attendants' and Servants' Diet.—1th. Uncooked Meat (Women, \$\frac{2}{4}\theta.), 1th. Vegetables, 1th. Bread, \$\frac{1}{2}\$ pint New Milk daily; 2oz. Tea, \$\frac{2}{4}\theta. Sugar, \$\frac{1}{4}\theta. Coffee, 1th. Bacon, \$\frac{1}{2}\theta. Sutter, 1th. Cheese (Women, \$\frac{1}{2}\theta.) weekly. Sunday—Fruit Pudding or Tarts, Jam and Cake alternately. Suct Pudding once a week. If Puddings or Tarts are served twice a week deduct \$\frac{1}{4}\theta. meat. Night Attendants (non-resident) 2oz. Tea and 8oz. Sugar weekly.

CHARLES PLANCK,
Medical Superintendent. (Signed)

31st March, 1913.

REPORT OF COMMISSIONERS IN LUNACY.

BRIGHTON LUNATIC ASYLUM,

21st February, 1912.

The changes among the patients in this Asylum since the visit paid to it by two of our colleagues in July last have been as follows: -88 have been admitted; 122 have been discharged or removed, of whom 30 had recovered; and 51 have died. The result is that there are now on the books the names of 330 male and 457 female patients, a total of 787, which is a considerable reduction on the number at the date of the last visit, namely 872. The diminution is only partly accounted for by the removal of the West Ham patients, which has been effected in the interval, the contract for their reception having expired. Twenty-nine patients are of the private class, for whom the weekly charge varies from 16s. to 42s.; of the others 89 are Eastbourne cases, and 8 are chargeable to various Unions outside the Borough. Ten imbecile children are boarded out in Hellingly Asylum.

The sleeping accommodation is estimated to be sufficient for 361 men and 503 women, so that at the present time there appear to be vacancies for 31 and 46 respectively.

Among the work completed since the last visit may

be mentioned the renewal and improvement of the ceilings in two of the female dormitories, and the removal, in accordance with recommendations made from time to time by visiting Commissioners, of all fixed gas brackets in sanitary annexes.

The works in contemplation include a scheme for the enlargement and improvement of No. 6 Female Ward, plans for which have been under the consideration of our Board and will probably soon be finally settled. The changes thus to be made will enable the more troublesome patients in this ward to be kept apart from the others, which is very necessary, as without such separation it is almost impossible for the nurses to keep the patients tidy and in proper order. We would recommend that when the enlargement of the Airing Courts is carried out part of that appropriated to this ward should be fenced off for the more degraded patients. The Committee have decided to carry out improvements of the same kind in Male 6 Ward. Four of the male wards, the walls of which have been plastered, are about to be painted; it would be desirable that there should be variety in the colours adopted for the purpose.

When these wards and No. 6 on each side have been completed a good deal will have been done towards bringing the Asylum up to the proper standard, but there are still many places which require attention; for instance, the second storey male observation dormitory, the nurses' mess room, the serving room, and the meat larder. At least one of the padded rooms on each side should be fitted with floor padding irremovable by patients.

We saw all the patients, and gave to each the opportunity of talking to us, of which many availed themselves. They appeared to be generally contented, and made but few complaints. Their dress and personal condition were generally satisfactory, except those of the women in Female Ward 6, with respect to which we made some suggestions.

We saw dinner served in the dining halls. That on the female side, consisting of meat pie and meat pudding, gave evident satisfaction; that for the men, consisting of plum pudding, was not generally popular. The portions served were ample, and we would suggest that the experiment might be tried of giving somewhat less quantity of pudding and adding bread and cheese.

The beds and bedding were clean and in proper order, and sufficient.

No use of mechanical restraint or seclusion has been recorded in the period to which this Report applies.

The statistics for 1911 shew that the attendance during the year at the Sunday services in the Chapel and at the weekly entertainments was below the average; and we think something more should be done to provide for the religious needs of the Roman Catholic patients, 35 in number, for whom there were no services. The proportion of the women usefully employed was satisfactory; that of the men less so.

The causes of death were verified by post mortem examination in 69 per cent. of the 51 deaths, nearly one-fifth of which resulted from general paralysis. An

inquest was held on a male patient who drowned himself in a tank at the farm buildings, and also in two other instances, where death was found to have resulted from natural causes, because in the one case it had occurred soon after admission and in the other because it was sudden in character.

We found a number of aged feeble people in bed on the female side, and there was also one woman laid up with dysentery, with which disease II female patients have been attacked, 3 fatally, since July last; but taken as a whole the general health of the Asylum is good.

It is satisfactory to learn that the only serious casualty besides the one above mentioned was a fracture of the neck of the femur, now united, occasioned by a male patient being pushed down by a fellow patient.

The staff of male attendants is adequate in strength, and their record of service is very good, only 7 per cent. having at the end of 1911 served less than a year, while as many as 65 per cent. could count upwards of five years in the Asylum. The nurses' record leaves much to be desired, and they are not strong enough in number, especially in Ward 6.

The case books and other medical records continue to be well kept.

L. L. SHADWELL,

E. MARRIOTT COOKE,

Commissioners
in
Lunacy.
